You may also register by **mail** or **fax**; please call us for a registration form.

Payment must accompany registration.

AFP Certified Treasury Professional (CTP) Certification Preparation

With new and changing regulations concerning financial reporting and the complexities of business on a global scale, more employers are demanding that persons in financial positions be AFP certified. MCTC's program follows the AFP-recommended system for exam preparation, using AFP materials and covering all the content needed to pass the CTP exam, as well as help you in everyday work practice. The seven modules, the problem questions, and online tests are based on the format of the exam. The course covers cash management topics related to funds inflows and outflows, efficient utilization of cash, accounting concepts, investments and borrowings, international treasury and financial risk management, current technological developments and bank relationship management.

Prerequisite: Two years of experience in a full-time, cash management-related position, or the equivalent educational or teaching background. The program is designed for individuals seeking to broaden their knowledge and skills in the area of treasury and cash management and those who want to successfully prepare for the Certified Treasury Professional certification exam.

Sponsored by MN Treasury Mgmt Association.

Instructors: ***Jeanne Hilpisch***
